CK-7 Promotion-On-Hold Module (For RCA 25403, 25404, 25413, 25414, 25415 & GE 25403RE3, 25404RE3 phones)

Introduction

Thank you for purchasing the Skutch CK-7 Promotion-On-Hold Module for the RCA 25403, 25404, 25413, 25414 and 25415 four line telephones. The CK-7 supplies Promotion-On-Hold whenever any call is placed ON HOLD with the telephone's hold button. The CK-7 can be installed on any one of the compatible telephones and is accessible from all compatible telephones that are connected to the same telephone lines. Other makes and/or models of telephones can be used with the CK-7 but they will not produce Promotion-On-Hold when placed ON HOLD.

Audio Cord

The cord that comes with the CK-7 is used ONLY if you are using a CD player. If you are using a digital player, you should use the audio cable that was supplied with that unit.

Lights

When the CK-7 has detected a HOLD condition, it will light the corresponding LED on the CK-7. When the call is taken off hold, the LED will go out.

Trouble with High Audio Levels

If the audio level is too loud, it will cause the CK-7 to reset. In this case no audio will be heard until the line is picked up, and placed on hold again. To solve this problem, simply turn down the audio level.
